Report of the Superintendent of Schools OF MONROE, MAINE,

For the year ending Feb. 13, 1909.

FELLOW CITIZENS: The schools I am pleased to say, have been very successful during the past year. The attendance has been good. The prompt answers given in the examinations during the final visit of a term, have shown the interest the scholars have taken in their studies, and appreciation of the efforts of their teachers.

Unfortunately on account of sickness the schools in Districts No. 3 and No. 11 were closed during the winter term.

The work of our high school is too well known to need any special word from me.

The studies of Book-keeping, Commercial Arithmetic and Commercial Law have been added to the Academic Course which will give at least a year in commercial work.

FINANCIAL ACCOUNT OF THE COMMON SCHOOLS.
